Education

University of Science - Vietnam National University Ho Chi Minh City, Vietnam

Bachelor of Science in Information Technology. GPA: 3.95/4.0 09/2023-Expected Graduation: 09/2027

Available for full-time internship from: 05/2026

Professional Summary

Dedicated Software Engineering student focused on **Backend and Full-Stack development**, with a strong passion for the **Java ecosystem**. Experienced in building RESTful APIs, secure authentication, booking/payment workflows, admin dashboards, and React frontends through personal and team projects. Eager to grow as a Java Backend/Full-Stack Engineer in an international working environment.

Leadership & Activities

Personal Project, Smart Hotel Booking System

July 2026 - Present

Personal Project

- **Developed** a full-stack hotel booking platform with Spring Boot REST APIs, React user portal, and React admin portal for hotel, room, booking, and payment management.
- **Built** stateless authentication and RBAC with Spring Security, Supabase Auth JWT (ES256 verification), admin authorization, and protected REST endpoints.
- **Implemented** booking engine with room availability search, date validation, billable-night pricing, user booking history, and PostgreSQL GiST/tsrange constraint to prevent overlapping reservations.
- **Integrated** VietQR/SePay-style checkout with QR payment flow, payment-status polling, webhook handling, transaction logging, and admin resolution for unmatched transfers.
- **Designed** AI-ready search/concierge architecture using Supabase PostgreSQL, pgvector concepts, semantic search documentation, and room-service request data model.

Tech Stack: Java 17, Spring Boot 3, Spring Security, Spring Data JPA, Hibernate, PostgreSQL (Supabase), React 19, Vite, Supabase Auth, JWT, VietQR/SePay | *Personal Project*

Project Lead, Food Order Mobile Application

January 2026 - April 2026

"Mobile Application Development" course

- **Led** a 5-member team developing a production-ready food delivery mobile application with AI integration, payment processing, and real-time notifications.
- **Implemented** order management: menu browsing, cart, multi-step checkout, order status tracking, saved addresses, favorites, and order history.
- **Built** customer mobile UI, authentication, dynamic address selection, dine-in/delivery checkout, real-time customer-admin chat, and review/rating system with multi-image uploads.

Tech Stack: Java, Supabase PostgreSQL, Retrofit, SePay API, Qwen AI | *Team: 5 developers*

Project Co-Lead, Instant Messaging System - HCMUS

October 2025 - December 2025

"Java Application Programming" course

- **Co-led** a 2-developer team building a Java Swing instant messaging platform with Supabase PostgreSQL backend.
- **Engineered** client-side architecture for authentication, profile management, friend requests, direct chats, and group chats.
- **Implemented** Java Socket-based real-time messaging with end-to-end encryption and database integration for user state, message storage, and group roles.

Tech Stack: Java, Swing, Java Sockets, Supabase PostgreSQL | *Team: 2 developers*

- **Led** a 5-developer team building a full-stack online auction marketplace, defining system design, task allocation, and code quality standards.
- **Designed** JWT authentication with token refresh, bcryptjs password hashing, and RBAC for bidder, seller, and admin tiers.
- **Developed** bidder and seller features including real-time bidding, watchlist, auto-bid, bid history, seller dashboard, checkout, winner management, and rating flow.
- **Architected** modular RESTful APIs and responsive React/Tailwind UI backed by Supabase PostgreSQL.
***Tech Stack:** React, Tailwind CSS, Node.js, Express.js, JWT, Supabase PostgreSQL | Team: 5 developers*

Technical Skills

- **Languages:** Java, JavaScript, SQL
- **Frontend:** HTML, CSS, React, Tailwind CSS, Vite
- **Backend:** Spring Boot, Spring Data JPA, Hibernate, Node.js, Express.js, RESTful APIs, WebSocket
- **Security & Auth:** Spring Security, JWT, OAuth2, RBAC
- **Database & Cloud:** PostgreSQL (Supabase), Supabase Auth, Supabase Realtime, pgvector
- **Tools:** Git, GitHub, Maven, npm, Postman

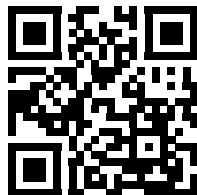

Languages

- **Vietnamese** (Native)
- **English** (Academic IELTS 6.0)

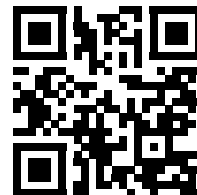

Knowledge

- Java Development, Web Development, Mobile Application Engineering, Object-Oriented Programming (OOP), Design Patterns, Algorithms, Backend API Design, Relational Database Design
